

Rail Industry

Linguistic Support for the Rail Industry

Do you need translations of your technical publications or software?

Do you wish to diversify into international markets, avoiding the language barriers that slow down your ability to communicate?

Do you require linguistic assistance to clarify or solve a specific issue?

Allow us to reduce the time and cost involved in the production of your multilingual resources.

We have an experienced team who have worked with high profile rail companies such as Bombardier, Balfour Beatty, Atkins Global and DB Schenker for many years.

We understand the common issues and pitfalls unique to each language, and are experienced in working with standard and diverse character sets, including Hindi, Chinese, Arabic and Russian.

For one-off projects or long-term linguistic support, choose us as your linguistic partner.

We offer:

- Multilingual authoring and editing of technical publications
- Translation of software and help files using applications such as Visual Basic and RoboHelp
- Ability to work in all file formats for both MAC and PC, including FrameMaker, InDesign and Quark Xpress
- Specialist proofreading of technical text
- Complete project management from initial translation through to print

Markets we work in include:

- Aerospace
- Distributions and Logistics
- Automotive
- Electronics
- Telecommunications
- Security and Defence
- Tourism
- Health & Safety
- Legal
- Chemical Manufacturing
- Pharmaceuticals
- Technology

Please contact us for more details of our services, a simple pricing guide or a formal quotation. We look forward to hearing from you.
