

# Website Translation & Localisation

## Global Key – A Turnkey Solution to Website Localisation

We can handle all aspects of website localisation, from the initial translation of your website's content right through to provision of the database architecture with which to manage it all.

Our localisation service is webmaster friendly with only minimal changes to your website being necessary. What's more you won't have to duplicate any pages in order to provide your content in multiple languages, saving you time and money.

### **We offer:**

- Website translation into all known languages
- Automatic detection of your visitor's native language
- Seamless switching between languages anywhere on the site
- A powerful server-side solution for managing parallel website content
- A JavaScript alternative to our server-side solution (for 'static' html websites)
- No need to duplicate pages
- Website development services available on request

Please contact us for more details of our services, a simple pricing guide or a formal quotation. We look forward to hearing from you.
